#### **Independent Auditor's Report**

Honorable Mayor and Members of the City Council City of Locust Grove, Georgia

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Locust Grove, Georgia, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Locust Grove, Georgia, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows and the respective budgetary comparison of the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information on pages 3 through 12 and 58 through 65, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Locust Grove, Georgia's basic financial statements. The combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are fairly stated, in all material respects, in relation to the financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2021, on our consideration of the City of Locust Grove, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

### MANAGEMENT'S DISCUSSION AND ANALYSIS CITY OF LOCUST GROVE, GEORGIA

(Unaudited)

The management of the City of Locust Grove provides this Management's Discussion and Analysis for readers of the City's financial statements for the year ended December 31, 2020. The purpose of this narrative is to provide readers of these financial statements with information that will help them make timely and meaningful financial decisions or draw conclusions about the City of Locust Grove. This narrative overview of the City's financial activities should be read in conjunction with the information included in the notes to the financial statements.

#### Financial Highlights

- The assets of the City of Locust Grove exceeded its liabilities at December 31, 2020 by \$38,419,397 (reported as "Net Position"). Of this amount \$4,334,853 is unrestricted.
- The total net position increased by \$2,7378,618.
- As of the close of the current fiscal year, the City of Locust Grove's governmental funds reported combined ending fund balances of \$7,855,818, an increase of \$387,806 in comparison with the prior year. Of this amount \$3,497,230 is unassigned and available for spending and \$4,358,588 is restricted for capital projects and other specific future uses.
- At the end of the current year, unassigned fund balance for the General Fund was \$3,497,230, which is 57 percent of total General Fund expenditures for the year ending December 31, 2020.
- The City of Locust Grove's total debt obligations (including accrued compensated absences) decreased by \$481,960 to a total of \$5,313,798 as of year-end. The City made principal payments during the year on its long-term debt of \$644,293.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements of the City of Locust Grove (the "City"). The financial statements of the City comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. Comparative data is presented when available.

#### **Government-wide financial statements**

The focus of the government-wide financial statements is on the overall financial position and the activities of the City. The government –wide financial statements include the Statement of Net Position and the Statement of Activities and are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements include all assets and liabilities using the accrual basis of accounting. Accrual of the current year's revenues and expenses is taken into account regardless of when cash is received or paid.

#### Statement of Net Position

The Statement of Net Position (pages 13-14) presents information on all of the City's assets and liabilities, with the difference between the two reported as net position. The City's net position, which is the difference between assets (what the citizens own), and liabilities (what the citizens owe), is one way to measure the City's financial position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other non-financial factors, however, such as changes in the City's property tax base and the condition of the City's capital assets (roads, buildings, and utility systems) must be considered to assess the overall health of the City.

#### Statement of Activities

The Statement of Activities (page 15) presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The Statement of Net Position and the Statement of Activities are divided into two types of activities:

Governmental activities – Most of the City's basic services are reported under this category. These services include police, infrastructure maintenance, parks and recreation, and general administration. Taxes, fines/forfeitures and intergovernmental revenues (governmental activities) finance most of these activities.

Business-type activities — The City charges fees to customers to offset most of the cost of certain services it provides. The City's water and sewer and storm water utilities and solid waste services are reported under this category.

#### **Fund financial statements**

The focus of fund financial statements is directed to specific activities of the City and its most significant funds, not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, employs fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Some funds are required to be established by state law. The City uses two categories of funds: governmental funds and proprietary funds.

In fund financial statements, information is presented in separate columns for each of the major funds. Data from non-major funds are combined into a single, aggregated column for presentation. Individual fund data for each of these non-major funds is provided in the form of combining statements beginning on page 66.

#### **Governmental** funds

Most of the City's basic governmental activities reported in the government-wide statements are accounted for in governmental funds, which focus on how money flows into and out of the funds, and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental funds statements provide a detailed short-term view of the City's general government operations and the basic services it provides. The relationship (or differences) between governmental activities (reported in the statement of net position

and the statement of activities) and governmental funds is described in a reconciliation beside the fund financial statements.

In addition to the General Fund, which is considered a major fund, the City maintains two additional major funds, the Developmental Impact Capital Projects Fund and the SPLOST Capital Projects Fund.

Because the focus of the governmental funds financial statements is narrower than that of the government-wide financial statements and because of the different accounting methods used to prepare them, there are often significant differences between the totals presented in these financial statements. It is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. An analysis of the balance that reconciles the two statements is provided at the bottom of each statement.

#### **Proprietary funds**

When the City charges customers for the full or partial cost of the services it provides (whether to outside customers or to other units of the City), these services are reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities, using the accrual basis of accounting. Enterprise funds are a type of proprietary fund used to account for functions reported as business-type activities in the government-wide statements. The City uses three enterprise funds to account for separate business-type activities, which are reported in the basic proprietary fund financial statements, on pages 21-25 of this report. The City of Locust Grove uses enterprise funds to account for its water and sewer, storm water, and solid waste functions.

#### Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government –wide and fund financial statements. The notes to the financial statements can be found on pages 26-57 of this report.

#### Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including combined financial statements for non-major funds described earlier. Individual fund statements and schedules are presented following the required supplementary information. These statements and schedules contain much more detailed financial information about individual services or divisions of the City.

This report includes two schedules on pages 17 and 19 that reconcile the amounts reported on the governmental fund financial statements (modified accrual basis of accounting) with the governmental activities reported on the government-wide financial statements (accrual basis of accounting). The following summarizes the impact of transitioning from modified accrual to accrual accounting:

- Capital assets used in governmental activities on the government-wide statements are not reported on the fund financial statements.
- Certain revenues that are earned, but not available, are reported as revenue on the government-wide statement, but are reported as unearned revenue on the fund financial statements.
- Unless due and payable, long-term liabilities appear only in the government-wide statements.

- Capital outlay spending results in capital assets on the government-wide statements but is reported as expenditures on the governmental fund financial statements.
- Repayment of debt principal reduces a liability on the government-wide statements, but is an expenditure on the fund financials.
- Some expenses reported in the government-wide statements represent increases in liabilities on the government-wide statements but are not reported as expenditures in governmental funds because they do not require the use of current financial resources.

#### Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$38,419,397 as of December 31, 2020. The following table provides a summary of the City's governmental and business-type net position for the year ending December 31, 2020.

#### (in thousands)

	Govern			ss-Type vities	Total			
	2020	2019	2020	2019	2020 2019			
	2020	2013	2020	2013	2020	2013		
Current assets	\$ 8,153	\$ 7,703	\$ 4,520	\$ 5,095	\$ 12,673	\$ 12,798		
Capital assets	15,703	14,525	18,785	18,087	34,488	32,612		
Total assets	23,856	22,228	23,305	23,182	47,161	45,410		
Total deferred outflows								
of resources	592	165	860	283	1,452	448		
Current liabilities	756	704	2,765	1,653	3,521	2,357		
Noncurrent liabilities	1,408	930	4,330	6,562	5,738	7,492		
Total liabilities	2,164	1,634	7,095	8,215	9,259	9,849		
Total deferred inflows								
of resources	640	630	955	108	1,595	738		
Net Position								
Net investment								
in capital assets	15,703	14,525	13,832	12,809	29,535	27,334		
Restricted	2,337	3,027	2,211	500	4,548	3,527		
Unrestricted	4,179	3,144	157	1,675	4,336	4,819		
Total net position	\$ 22,219	\$ 20,696	\$ 16,200	\$ 14,984	\$ 38,419	\$ 35,680		

The largest portion of the City's net position as of December 31, 2020 (77%) reflects its net investment in capital assets (e.g. land, buildings, machinery, equipment and the street and sidewalks). The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

The following table provides a summary of the City's governmental and business-type revenues and expenses for the year ending December 31, 2020.

#### **Governmental Activities**

Governmental Activities increased the City's net position by \$1,522,505. Key elements of this increase were as follows:

- An increase of approximately \$590,111 in taxes from the prior year.
- An increase of approximately \$571,314 in charges for services from the prior year

#### Business-type Activities

Operations of business-type activities increased the City's net position by \$1,216,113. Key elements of this increase were as follows:

- Revenues from business-type activities increased approximately \$141,814.
- Expenses from business-type activities increased approximately \$817,500.

#### Financial Analysis of the Government's Individual Funds

As noted earlier, the City of Locust Grove uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and financial reporting requirements.

#### **Governmental funds**

The City uses governmental funds to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, an unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

At the end of the current year, the City's General Fund reported an ending fund balance of \$5,417,721 an increase of \$864,856 in comparison with the prior year. Approximately 98% of this amount (\$5,285,770) constitutes a combined assigned and unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance is in restricted or non-spendable form.

Review pages 68-72 for additional information on the General Fund.

#### Financial Analysis of the Government's Individual Funds (Continued)

#### Special Revenue Funds

- Confiscated Assets Fund: This fund is used to account for assets obtained by the City as a result of investigations into illegal drug activities. The fund balance for this fund was \$66,931 and \$158 on December 31, 2020 and 2019, respectively.
- Hotel/Motel Tax Fund: The Hotel/Motel Tax Fund receives revenues from taxes on hotels and motels within the City. 43.75% of these revenues must be paid to the Henry County Chamber of Commerce Convention and Visitors Bureau for tourism and promotional purposes. The fund balance for this fund was \$572,197 and \$517,245 on December 31, 2020 and 2019, respectively.

Review pages 73-76 for additional information on the Special Revenue funds

#### Capital Projects Fund

- SPLOST Fund: The City has one Special Purpose Local Option Sales Tax fund for the purpose
  of funding capital projects. These funds were voted on by the citizens of Henry County,
  Georgia and are passed to the City of Locust Grove by way of an intergovernmental
  agreement (SPLOST IV) or by Statute (SPLOST V). The fund balance for this fund was \$986,801
  and \$1,259,000 on December 31, 2020 and 2019, respectively.
- Development Impact Fund: The Development Impact Fund collects revenues generated through a Fee Ordinance approved by the City Council. The City uses these fees to fund major capital improvements for parks, police and streets. The fund balance for this fund was \$812,168 and \$1,429,473 at December 31, 2020 and 2019, respectively. The recent return to near-normal construction from the recent recessionary levels means that more funds will be made available for capital projects.

Review pages 77-80 for additional information on the Capital Project Fund.

#### **Proprietary Funds**

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

2020 net position of the City's three proprietary funds are as follows:

Water and sewer: \$15,484,676 Solid waste management: \$118,571 Storm water: \$597,015

The increase in net position for the funds was approximately \$1,216,113. Other factors concerning the finances of these three funds have already been addressed in the discussion of the City's Business-type activities.

Review pages 81-91 for additional information on the Enterprise funds.

#### Financial Analysis of the Government's Individual Funds (Continued)

#### **Capital Asset and Debt Administration**

#### Capital Assets

The City's investment in capital assets for its governmental and business-type activities was \$29,535,439 and \$32,612,621 (net of accumulated depreciation) on December 31, 2020 and 2019, respectively. This investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure, and distributions systems for water/sewer and storm water management.

During the year ended December 31, 2020, the City invested \$3,382,301 in new capital assets. Investment for governmental activities was \$1,798,585 and \$1,583,716 for business-type activities. Major capital asset events during the current year ended December 31, 2020 included the following:

#### Governmental activities:

Land	\$ 400,000
Construction in progress	\$ 1,152,430
Vehicles and equipment	\$ 246,155

#### **Business-type activities:**

Construction in progress	\$ 1,295,152
Vehicles and equipment	\$ 288,564

More information on capital assets may be found in the Note 7 to the Financial Statements on pages 43-44 of this report.

#### **Debt Administration**

At the end of the current fiscal year, the City had \$4,465,000 outstanding Water and Sewerage Refunding Revenue Bonds, Series 2016, with an interest rate of 2%. The bonds refunded the previous Series 2013 bonds which financed improvements in water/sewer infrastructure. The City also had three outstanding notes payable related to equipment. The total liability related to these notes payable at year-end was \$343,240.

More information on long-term debt may be found in Notes 8 and 9 to the Financial Statements on pages 44-46 of this report.

#### Economic Factors and Next Year's Budget

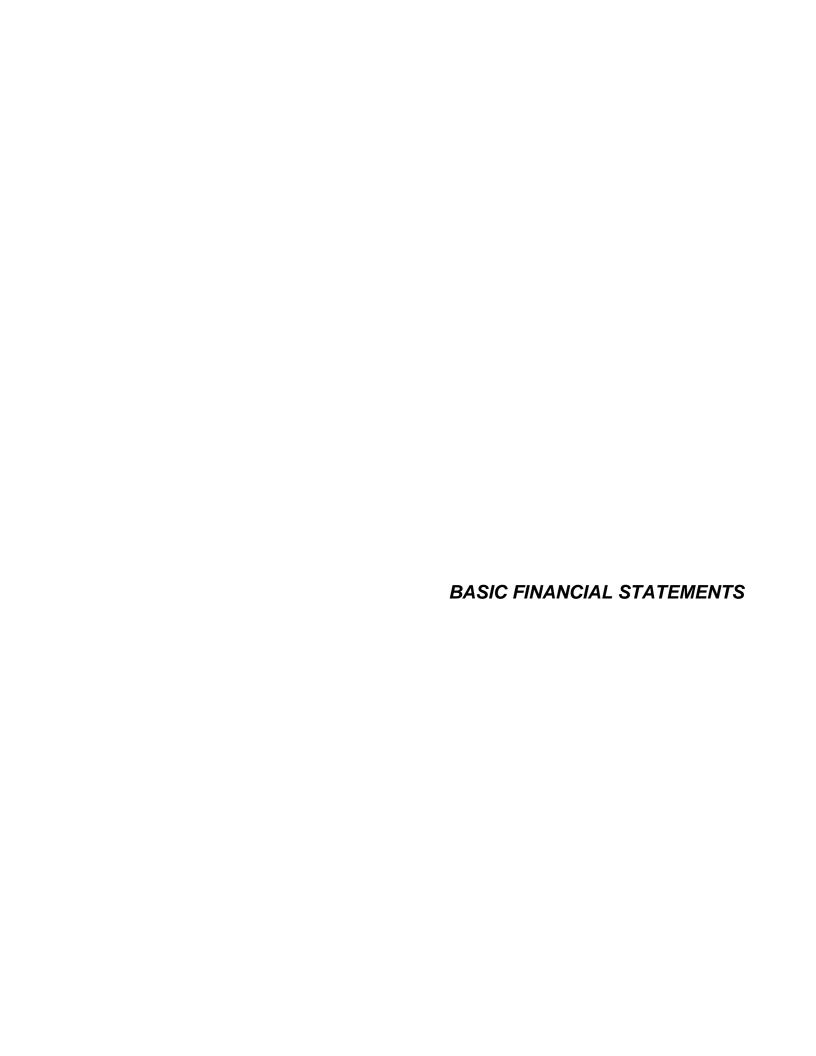

□ Locust Grove grew by 8.5% in 2020 despite the COVID-19 Pandemic and remains officially now the third largest city in Henry County, passing up Hampton as of July 31, 2019. The city will did not pass the critical 9,000 population figure in the 2020 Census, with an official figure of 8,947. However, the city is continuing to grow at a rapid pace and should reach 10,000 by mid-2023, which will increase certain regulatory reporting and operating requirements by State Law regarding utilities while also increasing the city's role in future intergovernmental agreements with Henry County and its component cities.

I	Inflationary trends in the region continue to compare well with national indices, with more volatility in swings either up or down due to dependency on volatile fuel costs and the distance from the Atlanta Region Core. Construction costs are markedly higher due to reduced competition since the Great Recession, the rapid rise in key building components such as wood and electrical equipment and finishes such as cabinetry and appliances. Transportation and other large public works projects have some of the greatest variability between estimates and pricing.
Ī	New large-scale commercial and industrial development continued to increase in 2020 as the switch to online fulfillment and logistics needs rapidly grew from the Pandemic Economy. Several large projects on the northeast quadrant of the I-75 and Bill Gardner Parkway along SR 42 have been completed with more under development. Industrial development will continue to outpace most other nonresidential development for the next several years in
[	overall square footage, especially as the new interchange is developed at Bethlehem Road. Building permits for residential construction moderated somewhat due to Pandemic supply chain issues. All undeveloped lots purchased in the past several years are now built out, and several new subdivisions are under construction in the south and eastern sides of the City. As interest rates and relative price advantages to other parts of the region continue to hold, expect more demand to continue in this decade.
[	The unemployment rate for the City of Locust Grove continues to compare reasonably between the state and regional rates, although the effects of the COVID-19 pandemic are compounding the need for labor in nearly all sectors of the economy and fueling some labor cost inflation. This will impact the City as we must increase pay to remain competitive in the area and retain personnel.
I	The biggest challenge in terms of employment is the availability of a trained workforce equipped for the new economy. This has been noted in prospective industrial tenants as well as our own needs for employees for various skilled and unskilled functions.
[	The occupancy rate of the City's downtown area before the Pandemic was essentially 100%, including redevelopment of several storefronts into office and restaurant uses. The success of the area is maintained into 2020 and the new year as tenants change, but no longer term vacancies expected the rest of the decade.
ľ	Tourism revenues were expected to be substantially short due to the Pandemic in 202; however, we realized later in the year that increased travel by car for leisure and business created intense demand that resulted only in a slight decline over 2019. For 2021 revenues have only continued to increase at a pace not seen before. Another new hotel (LaQuinta Inn and Suites) is set to open Fall 2021 and will continue the surge in tourism dollars into the foreseeable future.
I	The Cities and the County finally reached agreement with the Service Delivery Strategy as required by state law. Special Service Tax Districts to fund services have been created to fund services such as Fire Protection and Police in the County, and there is the possible need for a Transportation Services District should the TSDLOST fail in Neverther
I	Transportation Service District should the T-SPLOST fail in November.  Collections for LOST were favorable over 2019 and have remained fairly steady into 2020 despite the COVID-19 pandemic. Most of this was a shift in where money was spent from the residential workforce into Henry County as opposed to nearby large employment centers. There is still the threat of continued erosion in brick and mortar retail which hinder large-scale retail projects that were proposed in the Stockbridge area as well as originally proposed in the city over a decade ago. The rapid growth in population with new housing may bring enough critical mass for more retail and service offerings in the future.

	SPLOST V revenues increased beyond the original projects due to the Pandemic surge in local
	retail sales, meaning the cities will begin receiving distributions in the late Summer of 2021
	instead of 2022. As such, the City is beginning to work on the projects listed in the SPLOST V
_	program.
	Collections from Utilities into the Enterprise Funds increased steadily as part of overall growth
	and development of the City, although we were not able to increase rates in the Pandemic
	Period. Further, we did not cut off customers throughout much of 2020 due to the issues
	related to the Covid crisis; however, we did begin to work with customers with large balances
	to work them down beginning in August of 2020 and are now essentially back to pre-
	Pandemic operations with the exception of fee waivers for contactless payment.
	More funds will be needed for basic road maintenance and meeting congestion needs over
	the coming decades to replace pavement within the recently-developed subdivisions as they
	age. The City seeks to find additional funding from HB 170 to assist with some of this growing
	need, as well as the possibility of future funding options from fractional sales tax votes within
	Henry County and its cities (T-SPLOST). We are embarking on a proposal to spend over \$2
	million in General Fund for the continuation of the Bethlehem Road Industrial Interchange
	along with congestion mitigation measures along Bill Gardner Parkway in the 2020 and
	beyond.
	The City added several new positions this year in Community Development and in Public
	Works, with more maintenance workers training for water and wastewater plant operators.
	Our Police Chief of over 20 years retired and was replaced quickly by an active Chief of Police
	from an adjoining city. We have also begun to add more officers to meet the challenges
	related to growth in the community.
	As part of continuing technological changes, we are beginning the migration of our Incode
	financial software system to a cloud-hosted environment. We are also upgrading to the latest
	version of Incode that will require more staff training, which will allow for better knowledge
	and less errors in the future. Furthermore, we are working to migrate all of our computer
	storage and operations to the cloud and will be using separate vendors for security protection
	and data integrity.
	The City will be making changes in our payments system in 2021 and 2022 to remain
	compliant with current payment protocols and allowing more secured payment methods via
	chip and contactless NFC technology that will be replacing mag-stripe methods.
	The COVID-19 Pandemic affected operations heavily in the lockdown period in April – May of
	2020 and then had further effects on the way business was conducted as the city confronted
	multiple viral "waves" in July-August and then December 2020 – January 2021. We are now
	in the midst of a third and potentially worse wave with the Delta Variant that is causing the
	City to enact more requirements on employee for vaccination and testing.
	These factors were considered in preparing the City of Locust Grove's budget for FY 2021, as
	well as recent amendments.

#### Requests for Information

This financial report is designed to provide a general overview of the City of Locust Grove's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. Questions concerning this report or requests for additional information can be obtained by contacting the City at (770) 957-5043 or at the following address: City of Locust Grove Attention: Misty Spurling, City Clerk P.O. Box 900, Locust Grove, GA 30248.

#### 1. Description of Government Unit

The City of Locust Grove was established in 1893. The City operates under a council/mayor form of government and provides the following services: public safety, street and sanitation, culture and recreation, public improvements and general and administrative services. In addition, the City operates public utilities for water, sewer, solid waste and stormwater management for the incorporated and immediate surrounding areas.

The City is governed by an elected mayor and six-member council.

#### 2. Summary of Significant Accounting Policies

#### A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business- type activities, which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

#### B. Reporting Entity

The accompanying financial statements present the government and its component units, entities for which the government is considered financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

#### 2. Summary of Significant Accounting Policies (continued)

#### B. Reporting Entity, continued

#### City of Locust Grove Downtown Development Authority

The City of Locust Grove Downtown Development Authority ("Authority") was established as a legally separate entity, which operates pursuant to the Official Code of Georgia Annotated. The Authority consists of seven members appointed by the Authority Chairman. The Authority provides for the vitalization of the downtown area of the City of Locust Grove. The Authority has a December 31 year-end and is considered a discretely presented component unit of the City. For the current year, the Authority had no activity to report in the financial statements.

#### City of Locust Grove Historic Preservation Commission

The City of Locust Grove Historic Preservation Commission ("Commission") was established as a legally separate entity, which operates pursuant to the Official Code of Georgia Annotated. The Authority consists of five members appointed by the City. The Commission provides for the historic preservation of properties within the City of Locust Grove. The Commission has a December 31 year-end and is considered a blended component unit of the City. For the current year, the Commission had no activity to report in the financial statements.

#### C. Basis of Presentation – Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the City has one discretely presented component unit and one blended component unit. Neither is considered to be a major component unit and there is no activity during the current year.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

#### 2. Summary of Significant Accounting Policies (continued)

#### D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

**General Fund** - The general operating fund of the City is used to account for all financial resources except those required to be accounted for in another fund.

**Developmental Impact Fund** – This fund is used to account for impact fees collected by the City to be used on capital improvements for parks, police and streets.

**SPLOST Fund** – This fund is used to account for long-term projects financed by the passage of the Henry County special purpose local option sales tax.

The City reports the following major proprietary funds:

Water and Sewer Fund - This fund is used to account for activities connected with the development, operation and maintenance of water and sewer services in the City of Locust Grove.

**Solid Waste Management Fund** – This fund is used to account for activities connected to sanitation and recycling services provided to the residential and commercial users of the City of Locust Grove.

**Storm Water Fund** – This fund is used to account for activities connected to management of the flood plains by maintaining natural and artificial water drainage with the City of Locust Grove.

#### 2. Summary of Significant Accounting Policies (continued)

#### D. Basis of Presentation – Fund Financial Statements, continued

Additionally, the City reports the following fund types:

#### **Governmental Fund Types**

**Special Revenue Funds** - This fund type is used to account for the proceeds of specific revenue sources that are legally or donor restricted to expenditure for specified purposes.

**Capital Projects Funds** - This fund type is used to account for financial resources to be used for the acquisition or construction of capital assets (other than those financed by the proprietary or fiduciary funds).

#### **Component Units**

The City of Locust Grove Downtown Development Authority and the City of Locust Grove Historical Preservation Commission is accounted for using a current financial resources measurement focus and uses the modified accrual basis of accounting. Under this method, revenues are recognized when susceptible to accrual (i.e. when they both become measurable and available).

#### 2. Summary of Significant Accounting Policies (continued)

#### D. Basis of Presentation – Fund Financial Statements, continued

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### 2. Summary of Significant Accounting Policies (continued)

#### E. Measurement Focus and Basis of Accounting, continued

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end).

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

## 2. Summary of Significant Accounting Policies (continued)

#### F. Revenues and Expenditures/Expenses

Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Certain indirect costs have been included as part of program expenses reported for the various functional activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer, Solid Waste Management, and Storm Water Funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal services funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## G. Budgets and Budgetary Accounting

The City Council adopts an annual budget for all governmental fund types, prior to January 1, except for the Capital Projects Funds. The Capital Projects Funds are budgeted by City Council when capital projects are approved. The operating budget includes proposed expenditures and the means of financing them. The budget is legally enacted by the passage of a resolution.

Formal budgetary accounting is employed as a management control for the General Fund, Special Revenue Funds, and Enterprise Funds. The Capital Projects Fund is budgeted by the City Council when capital projects are approved. Annual operating budgets are adopted each year through approval by the Council. Before the end of each year, the City Manager submits a proposed budget for the upcoming year to the City Council for their review. Prior to adoption, a public hearing is held to receive comment from the citizenry on the proposed budget.

# 2. Summary of Significant Accounting Policies (continued)

#### G. Budgets and Budgetary Accounting, continued

This hearing is publicized in the local newspaper one week before the hearing, and the budget document is made available for public inspection during this week. After the public hearing, the budget is then revised by the City Council and the first reading of the proposed budget is made. At the next City Council meeting, the second reading of the proposed budget is made and the City Council votes to adopt the proposed budget. The annual operating budget is adopted no later than December 31st for the following year.

The annual budgets for the General Fund and Special Revenue Funds are prepared in accordance with the basis of accounting utilized by that fund. The budgets for the Enterprise Funds are adopted under a basis consistent with GAAP, except that depreciation, certain capital expenses, non-operating income and expense items are not considered. All unencumbered budget appropriations, except project budgets, lapse at the end of each year.

The legal level of budgetary control is the departmental level. Any increases in total appropriations of a department require approval and amendment of the budget by the City Council.

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) at the legal level of budgetary control, which is the department level. Expenditures may not exceed the appropriations within a fund. Budgets, as reported in the financial statements, are as originally passed by ordinance and subsequently amended. During the year, several supplementary appropriations are made as needed. The results are increases and decreases to the appropriations within the funds. All annual appropriations lapse at year-end.

#### H. Cash and Investments

Cash and cash equivalents, as reported in the statement of cash flows, includes amounts in demand deposits, amounts with fiscal agents and investments with an original maturity at three months or less. Investments are reported at fair value with accrued interest shown under a separate caption on the balance sheet. Reinvested interest on certain debt service and capital project investments is included in the investment accounts.

# 2. Summary of Significant Accounting Policies (continued)

#### I. Intergovernmental Receivables

Receivables for state, federal, and local governments are recorded as revenue for the period of the allocation or as earned based on expenditures made for which reimbursement is due.

#### J. Inventories

Inventories are valued at cost on the first-in, first-out method.

#### K. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the end of the current year are recorded as prepaid items.

## L. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (i.e., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

GASB Statement No. 34 required the City to report and depreciate new infrastructure assets effective with the beginning of the year ended December 31, 2004. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the City. Prior to January 1, 2007, neither their historical costs nor related depreciation had historically been reported in the financial statements. For entities the size of the City of Locust Grove, retroactive reporting of infrastructure assets was not required.

# 2. Summary of Significant Accounting Policies (continued)

#### L. Capital Assets, continued

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at their acquisition value on the date donated.

The City capitalizes all assets with an original cost of \$3,500. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets ranging as follows:

	Useful Life
	in Years
Buildings and improvements	25-50
Infrastructure	40-50
Machinery and equipment	40-50
Vehicles	3-5
Furniture and fixtures	10-20
Land improvements	20
Intangibles	20-40

The costs of normal maintenance and repairs that do not add value or materially extend the life of the asset are charged to operations as incurred. Costs of major additions and improvements are capitalized.

# 2. Summary of Significant Accounting Policies (continued)

#### M. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City reports deferred outflows of resources related to their defined benefit pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports deferred inflows of resources related to their defined benefit pension plan.

## N. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation benefits which will be paid to the employees upon separation from City service. Accumulated unpaid vacation pay amounts are accrued when incurred by the City in the government-wide, proprietary, and fiduciary fund financial statements. The liability of the proprietary funds is recorded as an expense and a liability of those funds as the benefits accrue to the employees. In governmental fund types, a liability is recorded only if the benefit has matured and is expected to be liquidated with expendable available financial resources.

# 2. Summary of Significant Accounting Policies (continued)

#### O. Pensions

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Locust Grove Employees' Pension Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### P. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financial sources while discounts on debt issuances are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

#### Q. Capital Contributions

Federal, state and local government assistance in the form of grants that are permanent in nature and restricted for the construction or acquisition of specific property and equipment is recorded as an asset and as non-operating revenue.

# 2. Summary of Significant Accounting Policies (continued)

#### R. Fund Balances – Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

**Nonspendable** – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact. All amounts reported as nonspendable at year end by the City are nonspendable in form. The City has not reported any amounts that are legally or contractually required to be maintained intact.

**Restricted** – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

**Committed** – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the City Council, the City of Locust Grove's highest level of decision making authority, which include the language "committed for the purpose of". Commitments may be modified or rescinded only through adoption of a subsequent resolution. A resolution committing amounts must be adopted prior to the end of the year; however, the amount to be committed may be determined within 120 days of year-end.

Assigned – includes amounts that the City intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the City Council's adopted policy, amounts may be assigned by the City Manager, under the authorization of the City Council, through a written memorandum. Amounts appropriated to eliminate a projected deficit in the subsequent year's budget shall constitute assignments and are documented by adoption of the City's annual operating budget. Equity amounts reported in special revenue funds, capital project funds, debt service funds, or permanent funds not otherwise classified as nonspendable, restricted, or committed shall constitute assignments of fund balance.

# 2. Summary of Significant Accounting Policies (continued)

#### R. Fund Balances – Governmental Funds, continued

**Unassigned** – includes amounts that do not fall into one of the above four categories. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The General Fund is the only fund that should report this category of fund balance.

For the purposes of fund balance classification, the City considers restricted amounts spent first when an expenditure is incurred for which both restricted and unrestricted fund balance is available. Furthermore, when an expenditure is incurred for purposes for which amounts in any of the unrestricted classifications of fund balance can be used, then committed amounts are spent first, followed by assigned amounts, and then unassigned amounts.

### S. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### T. Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

# 2. Summary of Significant Accounting Policies (continued)

#### U. Restricted Assets and Restricted Net Position

Restricted assets of the Enterprise Funds represent certain resources set aside for the repayment of revenue bonds because they are maintained in a separate bank account and their use is limited by applicable bond covenants.

Restricted net position is equal to the excess of the restricted assets funded from operations over the liabilities to be paid with restricted assets which are due in one year or less. Restricted assets exclude bond proceeds for calculation of reserve.

### V. Comparative Data and Reclassifications

Comparative total data of the prior period has been presented in the accompanying individual fund financial statements in order to provide an understanding of changes in the City's financial position and operations. Certain prior year amounts have been reclassified to conform to the current year presentation.

# 3. Deposit and Investment Risk

#### **Custodial Credit Risk - Deposits**

Custodial credit risk is the risk that in the event of a financial institution failure, the City's deposits may not be returned. The City has no formal policy, but follows the State of Georgia requirement that all deposits be federally insured or fully collateralized.

#### **Interest Rate Risk**

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### **Credit Risk**

State of Georgia law limits investments to include certificates of deposit, repurchase agreements, direct and agency obligations of the United States, obligations of the State of Georgia, pooled investment programs of the State of Georgia, and no-load mutual funds of direct obligations of the United States. The City has no investment policy that would further limit its investment choices. Investments are reported at fair value.

# 3. Deposit and Investment Risk (continued)

#### **Concentration of Credit Risk**

The City has no formal policy on the amount the City may invest in any one issuer.

#### Foreign currency risk

The City has no investments denominated in a foreign currency.

# 4. Accounts Receivable

Net accounts receivable at the end of the current year consist of the following:

Major Funds		
General Fund		\$ 106,216
Enterprise Funds		
Water and Sewer	\$ 627,025	
Less: Allowances for Uncollectibles	(202,751)	
Solid Waste Management	67,176	
Less: Allowances for Uncollectibles	(12,299)	
Storm Water	65,593	
Less: Allowances for Uncollectibles	0	544,744
Total Primary Government		\$ 650,960

# 5. Taxes Receivable

Tax receivables at the end of the current year consist of the following:

Major Funds General	\$ 721,540
Nonmajor Governmental Funds	 93,578
Total Primary Government	\$ 815,118

# 6. Interfund Receivables, Payables, and Transfers

A summary of interfund receivables and payables as of the end of the current year is as follows:

Receivable Fund	Payable Fund	 Amount		
General	Water and Sewer	\$ 56,910		
Nonmajor governmental	General	5,823		
Solid Waste Management	General	85,691		
Storm Water	General	316,877		
		\$ 465,301		

The balance reported as Due to/Due from represent loans between the borrower funds and the lender fund. Balances reported between in the General Fund and nonmajor governmental funds resulted from transactions to alleviate equity in pooled cash deficits at year-end. Balances between the General Fund and the Water and Sewer and Solid Waste Management are short-term loans expected to be paid in the next year. Balances between the General Fund and the Storm Water Fund are expected to be paid as the Storm Water Fund grows.

# 7. Capital Assets

Capital asset activity for the primary government for the current year is as follows:

		Beginning Balance		Increases		Decreases		Ending Balance
Governmental activities								_
Non-depreciable assets	\$	2 602 064	φ	400.000	φ	0	\$	2 002 064

## 7. Capital Assets (continued)

Depreciation expense was charged to functions/programs as follows:

#### **Primary Government**

Governmental activities	
General Government	\$ 182,121
Public Safety	306,751
Public Works	77,180
Culture and Recreation	32,015
Housing and Development	22,515
Total depreciation expense for governmental activities	\$ 620,582
Business-type activities Water and Sewer Solid Waste Management	\$ 846,632 500
Storm Water	 39,072
Total depreciation expense for business-type activities	\$ 886,204

## 8. Long-Term Debt

#### **Business-Type Activities**

#### Bonds Payable from Direct Placement

Revenue bonds have been issued for business-type activities and are comprised of the following individual issues at December 31, 2020:

On May 10, 2016, the City issued \$6,785,000 in Water and Sewerage Refunding Revenue Bonds, Series 2016, with an interest rate of 2%. The \$6,785,000 revenue bonds are due in semi-annual installments through April 1, 2029; interest at 2.00% (\$4,465,000 outstanding), for the refunding of the 2013 Water and Sewerage Revenue Series Bonds, which were issued for the expansion of the water and sewer system in the City of Locust Grove. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable and the bondholders may proceed to protect and enforce the rights of the bondholders by a suit, action, or special proceeding in equity, or at law, either for the appointment of a receiver of the water/sewer system. The bonds are secured by a pledger of the net revenues derived from the operation of the water/sewer system.

## 8. Long-Term Debt (continued)

#### Bonds Payable from Direct Placement, continued

Annual debt service requirements for bonds payable from direct placement are as follows:

Year Ending December 31,	ı	Principal	ı	Interest		Total
2021	\$	610,000	\$	83,200	•	\$ 693,200
2022		595,000		71,150		666,150
2023		595,000		59,250		654,250
2024		605,000		47,250		652,250
2025		575,000		35,450		610,450
2026-2028		1,485,000		45,350		1,530,350
Totals	\$	4,465,000	\$	341,650		\$ 4,806,650

#### **Notes from Direct Borrowings**

During the year ended December 31, 2020, the City entered into a \$174,000 note payable with a financial institution to purchase a vehicle. The note has a balance of \$174,000 at December 31, 2020, bears interest at 2.285%, requires annual payments of \$37,365, and matures on August 10, 2025. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable. Note payments and performance obligations are secured by revenues on taxes, fees, and charges collected by the City.

During the year ended December 31, 2019, the City entered into a \$154,000 note payable with a financial institution to purchase equipment. The note has a balance of \$125,340 at December 31, 2020, bears interest at 3.385%, requires annual payments of \$34,046, and matures on December 19, 2024. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable. Note payments and performance obligations are secured by revenues on taxes, fees, and charges collected by the City.

During the year ended December 31, 2018, the City entered into a \$104,000 note payable with a financial institution to purchase equipment. The note has a balance of \$43,900 at December 31, 2020, bears interest at 3.445%, requires annual payments of \$23,034, and matures on September 1, 2022.

# 8. Long-Term Debt (continued)

## Notes from Direct Borrowings, continued

Annual debt service requirements for notes from direct borrowings are as follows:

Year Ending December 31,	F	Principal	lı	nterest	Total
2021	\$	84,408	\$	10,038	\$ 94,446
2022		87,123		8,264	95,387
2023		66,605		6,429	73,034
2024		68,620		5,340	73,960
2025		36,484		4,208	40,692
Totals	\$	343,240	\$	34,279	\$ 377,519

# 9. Long-Term Liabilities

### Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities of the City for the current year:

	Beginning Balance	 Additions	 Deductions	Ending Balance	_	ue Within One Year
Governmental activities Compensated absences	\$ 468,501	\$ 128,279	\$ (137,469)	\$ 459,311	\$	459,311
Business-type activities Bonds from direct placement Notes from direct borrowings Compensated absences	\$ 5,060,000 218,533 48,724	\$ 0 174,000 12,797	\$ (595,000) (49,293) (15,274)	\$ 4,465,000 343,240 46,247	\$	610,000 84,408 46,247
Total business-type activities	\$ 5,327,257	\$ 186,797	\$ (659,567)	\$ 4,854,487	\$	740,655

Revenue bond discounts/premiums are amortized over the life of the related debt using the straight-line method. In prior years, compensated absences of the governmental activities were liquidated in the General Fund.

Total interest expense in the business-type activities for the current year is \$100,010.

## 10. Unearned Revenue

In a prior period the City received water and sewer connection fees from a private developer in the amount of \$5,600,000. As a result of the payment, the developer owned credits to be applied to future water and sewer connections for subsequent development projects. The developer subsequently transferred the credits to a bank as part of a settle agreement. At year end, the bank held \$1,247,163 in connection fee credits toward future water and sewer connections in the City. During the year the City recognized \$421,941 in water and sewer connection fees related to the use of these credits.

# 11. Nonspendable, Restricted, Committed, and Assigned Fund Balances

The following is a summary of nonspendable, restricted, committed, and assigned fund balances of the governmental funds for the year ended December 31, 2020:

		General	D	evelopmental Impact		SPLOST	G	Nonmajor overnmental Funds	_	Total Sovernmental Funds
Nonspendable: Prepaid items	\$	37,366	\$	0	\$	0	\$	1,230	\$	38,596
Restricted for: Public Safety

and trade shows		0		0		0		194,166		194,166
	\$	1,788,540	\$	0	\$	0	\$	194,166	\$	1,982,706

## 12. Pension Plan

Plan Description. The City is a participating member of the Georgia Municipal Employees Benefit System (GMEBS), a state-wide agent, multiple-employer retirement system, administered by the Georgia Municipal Association. This is a defined benefit pension plan, which provides retirement, disability and death benefits to plan members and beneficiaries. The City has established provisions, which assign the authority to the City council members to establish and amend the benefit provisions of the plan.

Control over the operation and administration of the plan is vested with GMEBS along with custody of the plan assets. The plan provides that the City has no liability with respect to payments or benefits or otherwise under the plan except to pay over to GMEBS such actuarially determined contributions as are required to meet minimum funding standards of the Public Retirement Systems Standards Law and provide benefits thereunder. If terminated, the plan provides that if there are funds remaining after the satisfaction of all liabilities, such funds shall not revert to the City but shall be allocated to employees. All employees are eligible for immediate participation. Officials are covered under the plan and are eligible for immediate participation.

There are no loans to any of the City officials or other "party-in-interest," and there are no prohibited transactions. The plan assets do not include any securities or investments in the City of Locust Grove. The funds are managed by independent money managers.

The annual report and more detailed information regarding the plan can be obtained from the Plan Administrator, the Georgia Municipal Employees Benefit System.

At July 1, 2020, the date of the most recent actuarial valuation, there were 116 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	20
Terminated vested participants entitled to	
but not yet receiving benefits	26
Active participants	70
Total number of participants	116

# 12. Pension Plan (continued)

Benefits Provided. The plan provides retirement, disability, and death benefits. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 65 with no reduction in benefit. Members with thirty years of total service are eligible to retire at age 62 with no reduction in benefit. Officials are eligible to retire at age 65 with no reduction of benefits. Members are eligible for early retirement with reduced benefits at age 55 after 10 years of service. The benefit formula is 2.0% with a ten year vesting schedule for terminations.

Contributions. Employees make no contributions to the plan. The City is required to contribute the remaining amounts necessary to fund the plan in compliance with the minimum funding standards of the Public Retirement Systems Standards Law. The City's actuarially determined contribution rate for the current year was \$167,323, or 4.83% of covered payroll. The City's covered payroll for employees participating in the Plan for the current year was \$3,461,296. The Council provides for the benefits and funding policy through City ordinance and maintains the authority to change the policy. The administrative expenses set by contract with GMEBS are in addition to the state-required annual funding requirement. This funding policy, as specified by ordinance, has been the same since the inception of the plan.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. At the end of the current year, the City reported a net pension liability of \$1,624,698. The net pension liability was measured as of March 31, 2020, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of July 1, 2020. For the governmental activities, the net pension liability is liquidated by the General Fund. For the current year, the City recognized pension expense in the amount of \$344,296.

# 12. Pension Plan (continued)

At the end of the current year, the City reported deferred outflows of resources and deferred inflows of resources related to the plan from the following sources:

	Oi	Deferred utflows of esources	li	Deferred nflows of esources
Differences between expected and actual experience	\$	67,861	\$	(62,876)
Changes of assumptions		19,185		(10,927)
Net difference between projected and actual earnings				
on pension plan investments		331,561		0
Changes in participant fund allocation		85,696		(85,696)
City contributions subsequent to the measurement date		173,179		0
Totals	\$	677,482	\$	(159,499)

The \$173,179 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net position liability during the next year. Other amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

Year	
Ending	
December 31,	
2021	\$ 80,157
2022	71,436
2023	115,985
2024	77,226
Totals	\$ 344,804

## 12. Pension Plan (continued)

Actuarial Assumptions. The total pension liability in the Jully 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25%

Projected salary increases 2.25% plus service based merit increases

Cost of living adjustments 0.00%

Net investment rate of return 7.375%

Healthy mortality rates were based on the Sex-Distinct Pri-2012 Head-County Weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the Sex-Distinct Pri-2012 Head-County Weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

The mortality and economic actuarial assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period of July 1, 2015 through June 30, 2019.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2020 are summarized in the following table:

	Target	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
Domestic equity	45%	6.41%
International equity	20%	6.96%
Domestic fixed income	20%	1.96%
Real estate	10%	4.76%
Global fixed income	5%_	3.06%
Total	100%	

## 12. Pension Plan (continued)

Discount Rate. The discount rate used to measure the total pension liability was 7.375 percent. The projection of cash flows used to determine the discount rate assumed that contributions from employer will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Asset/Liability to Changes in the Discount Rate. The following presents what the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.375 percent) or one percentage-point higher (8.375 percent) than the current rate:

	Discount	Net Pension
	Rate	Liabilty (Asset)
1% decrease	6.375%	\$ 2,322,936
Current discount rate	7.375%	1,624,698
1% increase	8.375%	1,052,380

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued Georgia Municipal Employees Benefit System financial report

Other Plans. In addition to the plan above, various City employees are covered under the Peace Officers' Annuity and Benefit Fund of Georgia. Further information regarding this plan can be obtained from the plan's annual report. These plans are immaterial to the financial statements.

# 13. Deferred Compensation Plans

The City provides retirement benefits for its employees through a deferred compensation plan called The City of Locust Grove Deferred Compensation Plan ("Plan"). The Plan is created under Internal Revenue Code Sections 457. The Plan is administered by the Securian Retirement Services, an independent third party. Investments are managed by the Plan trustee under one of three investment options, or a combination thereof, as selected by the participant. The Pan, which is available to all employees, permits them to defer a portion of their salary until future years. Participation in the Plan is elective and is not mandatory. The City Council provides for the benefits and funding policy through a City ordinance and maintains the authority to change the policy.

December 31, 2020

13. Deferred Compensation Plans (continued)

Under the terms of the Plans, employees may defer a portion of their salary through voluntary

contributions to the Plan. Employees may defer a maximum of 25% of their salary, up to the

maximum allowable by federal law. The City will contribute 2% of the employee's compensation

per year for all employees who contribute 5% or more of their compensation and have incurred

one year of service. Matching contributions vest immediately. At the end of the current year,

there were 28 members of the Plans.

There is a cap of \$1,000 per eligible employee for City contributions. Funds are vested 100% at

the time of contribution. Amounts held in the Plans are not available to the employees until

termination, retirement, death, or unforeseeable emergency.

During the current year, the City contributed \$28,086 to the plans based on covered salaries of

\$1,104,408. Plan members made voluntary contributions of \$74,498 to the plans. Total payroll

was \$3,568,349.

The City has no fiduciary relationship with the plan, and plan assets are not available to the City

or its general creditors. The Plan assets are held in trust by the administrator for the exclusive

benefit of the participants of the Plan.

14. Hotel/Motel Lodging Tax

The City has levied a 8% lodging tax. A summary of the transactions for the current year are as

follows:

Lodging Tax Receipts

\$497,245

Disbursements for tourism and visitor programs

\$310,778 62.50% of Tax Receipts

Exhibit A-11, continued

## 15. Joint Ventures

Under Georgia law, the City, in conjunction with other cities and counties in the metropolitan Atlanta area, is a member of the Atlanta Regional Commission ("ARC") and is required to pay annual dues thereto. Membership in an ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the ARC in Georgia. The ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an ARC. Separate financial statements may be obtained from Atlanta Regional Commission, 229 Peachtree Street, #100, Atlanta, Georgia 30503.

# 16. Risk Management

Material estimates have been made by management about the life of depreciated capital assets. Management has used a conservative approach on these estimates.

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. City has elected to manage its risk financing activities through the purchase of commercial insurance. There have been no insurance settlements exceeding insurance coverage for any of the past three years.

Management estimates liabilities for unpaid claims based on the probability of losses exceeding the occurrence limits and the reasonableness of estimating those losses. At the end of the current year, the City has no losses that are probable or estimable and accordingly has not recognized any liability.

# 17. Contingencies

The City's legal counsel has stated that there are presently no determinable lawsuits.

## 18. Risks and Uncertainties

In January 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the City, its performance, and its financial results.

## 19. Subsequent Events

On April 5, 2021, the City signed a agreement with Georgia Department of Transportation for the Bethlehem Road Interchange Project which required a commitment from the City of \$1,000,000.

# 20. Changes in Beginning Balances

Prior period adjustments have been made as follows:

7.33%

1. Valuation Date

The actuarially determined contribution rate was determined as of January 1, 2020, with an interest adjustment to the fiscal year. Contributions in relation to this actuarially determined

contribution rate will be reported for the fiscal year ending December 31, 2021.

 Methods and Assumptions Used to Determine Contribution Rates

Actuarial cost method = Projected unit credit

Amortization method = Closed level dollar for remaining unfunded liability

Remaining amortization period = Remaining amortization period varies for the bases, with a net

effective amortization period of 10 years

Asset valuation method = Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if

necessary, to be within 20% of market value.

Net investment rate of return = 7.375%

Projected salary increases = 2.25% plus service based merit increases

Cost of living adjustments = 0%

Retirement age for inactive vested participants = 65

Mortality = Healthy mortality rates were based on the Sex-Distinct Pri-2012 Head-County Weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the Sex-Distinct Pri-2012 Head-County Weighted Disabled Retiree Mortality Table

with rates multiplied by 1.25.

## 3. Changes in Benefits

There were no changes in benefit provisions in the last two fiscal years.

## 4. Changes of Assumptions

The following assumption changes based on an actuarial study conducted in November and December of 2019:

The mortality table for healthy retirees and beneficiaries was changed from the sexdistinct RP-2000 Combined Healthy Mortality Table, set forward two years in age for males and one year for females to the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25.

The mortality table for disabled participants was changed from the sex-distinct RP-2000 Disabled Retiree Mortality Table to the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

The mortality table for active participants, terminated vested participants, and deferred beneficiaries was changed from the sex-distinct RP-2000 Combined Healthy Mortality Table, set forward two years in age for males and one year for females to the sex-distinct Pri-2012 head-count weighted Employee Mortality Table.

Future mortality improvement is based on projecting generationally from 2012 using 60% of the sex-distinct Scale SSA2019. Previously future mortality improvements were not explicitly projected.

The prior retirement assumption was based on the Plan's normal retirement eligibility. If normal retirement eligibility was only available on or after age 65, the prior assumption was 60% at ages 65 to 69 and 100% at age 70 and older. If normal retirement eligibility was available prior to age 65, the rates were 10% at ages 55 to 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at ages 65 to 69, and 100% at age 70 and older as long as a participant was at least eligible for early retirement.

## 4. Changes of Assumptions (continued)

The new assumption relates to when a given participant is eligible for normal retirement (either regular normal retirement or alternative normal retirement). Retirement rates do not apply if a participant is not eligible for either early or normal retirement. The retirement rates where normal retirement is available on or after age 65 are 5% at ages 55 to 59, 7% at ages 60 and 61, 20% at age 62, 10% at ages 63 and 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older.

Where normal retirement is available to a given participant at age 62, 63, or 64, the new retirement rates are 3% when first eligible for early retirement through age 60, 10% at ages 61 to 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 30%.

Where normal retirement is available at age 60 or 61, the new retirement rates are 3% when first eligible for early retirement through age 59, 10% at ages 60 to 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 20%.

Where normal retirement is available prior to age 60, the new retirement rates are 3% when first eligible for early retirement through the year prior to normal retirement eligibility, 10% from normal retirement eligibility through age 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 10%.

The turnover rates were changed from the greater of age-based rates and select rates for the first five years of service followed by age-based rates thereafter to service-based rates only.

The disability rates were changed to 50% of the rates in the prior age-based table.

The inflation assumption was decreased from 2.75% to 2.25%.

## 4. Changes of Assumptions (continued)

The salary increase assumption was changed from a service-based salary scale starting at 8.25% for the first two years of service with an ultimate rate of 3.25% at ten years of service to a service-based scale starting at 8.50% for the first two years of service with an ultimate rate of 3.00% at 15 years of service.

The investment return assumption was decreased from 7.50% to 7.375%.

# 4. Benefit Changes

Amounts reported for years ending in 2019 and later reflect that effective January 1, 2019, Firefighters and Police Officers have alternative normal retirement eligibility under the Rule of 80 with no minimum age requirement and all employees are vested after five years of service.

### **ENTERPRISE FUNDS**

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The funds are self-supporting in nature where the costs, including depreciation, of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges.

<u>Water and Sewer Fund</u> - Used to account for activities connected with the development, operation and maintenance of water and sewer services in the City of Locust Grove.

Solid Waste Management Fund - Used to account for activities connected with the collection and disposal of residential, commercial, industrial and institutional solid waste in the City of Locust Grove.

<u>Storm Water Fund</u> - Used to account for activities connected with the development, operation and maintenance of storm water services in the City of Locust Grove.

## Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.

Honorable Mayor and Members of the City Council City of Locust Grove, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund and the aggregate remaining fund information of the City of Locust Grove, Georgia, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City of Locust Grove, Georgia's basic financial statements and have issued our report thereon dated September 27, 2021.

### Internal Control over Financial Reporting

In planning and performing our audit, we considered the City of Locust Grove, Georgia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described below, we did identify certain deficiencies in internal control that we consider to be material weaknesses. We consider the following deficiencies in internal control to be material weaknesses:

### Comment 2020-001

*Condition:* Prior period adjustments were made to the financial statements to restate for incorrectly reported amounts. The beginning balances were materially misstated.

*Criteria:* Generally accepted accounting principles require that financial statements be properly reported.

Cause: The City did not sufficiently review year-end procedures for reporting in the financial statements before issuing financial statements.

Effect: Miscalculation and unreconciled accounts led to financial statements that were materially misstated.

#### Comment 2020-001, continued

Recommendation: Management should review their year-end procedures for reporting all balances in the financial statements.

Management Response: Management concurs with this finding. The City Manager and City Clerk will review all year-end balances to ensure they are properly calculated and recorded. This action was taken immediately upon receipt of the comment from our auditors.

#### Comment 2020-002

*Condition:* The City lacks sufficient controls and procedures regarding year-end close to ensure timely and accurate financial reporting. This included material adjustments during the audit process.

*Criteria:* Internal controls should be in place to ensure the City can perform timely and accurate year-end close procedures for the City to be able to produce its annual financial statements timely.

Cause: Certain account balances were not reconciled to subsidiary ledgers or other documentation.

Effect: Failure to properly design and implement internal controls over year-end close procedures may lead to financial statements that are materially misstated and lead to delays in financial reporting.

Recommendation: We recommend that the City's Finance Department continue to implement and/or strengthen internal controls over the year-end closeout procedures. We also recommend management reconcile account balances monthly to the subsidiary ledgers to ensure proper and timely recording.

Management Response: Management concurs with this finding. The City Manager and City Clerk will ensure that proper internal controls over the year-end close procedures are designed and implemented. Also, the City Manager and City Clerk will ensure that account balances are reconciled monthly to the subsidiary ledgers. This action was taken immediately upon receipt of the comment from our auditors.

### Comment 2020-003

Condition: Pooled Cash account balance did not agree to bank reconciliation.

*Criteria:* Effective internal control should allow for cash to agree to the reconciliation and subsequent year transactions not be recorded to cash activity in the prior year.

Cause: Transactions were recorded to pooled cash in December after year end and before the account was reconciled.

Effect: Transactions recorded to the prior year pooled cash balance led to financial statements that were materially misstated.

Recommendation: The City should not record transactions to cash after the account reconciliation but rather use other receivable and payable accounts to record certain transactions.

Management Response: Management concurs with this finding. The City Manager and City Clerk will review the procurement process for reconciliation of pooled cash and year-end accrual of transactions. This action was taken immediately upon receipt of the comment from our auditors.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Locust Grove, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### City of Locust Grove, Georgia's Responses to Findings

The City of Locust Grove, Georgia's, responses to the findings identified in our audit is described previously. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no such opinion on them.

### The Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
